## WAR NEWS.

### ROBERTS CROSSED THE VAAL YESTERDAY.

Gen. Hamilton is also on Transvaal Territory. Supplies now reaching Mafeking "Incredible Rapidity" of Canadian Boats and Supplies Captured at Maseru Schemes to Blow up the British Trains.

Winnipeg, May 28th.

A special from Cape Town says it is rumored that the British have entered Johannesburg.

London, May 27: The war office has received the following from Lord Roberts:

Vereinging, Sunday, May 27, 1:50: We crossed the Vaal this morning and are now encamped on the north bank.

The advance troops which crossed yesterday were only just in time to save the coal mines on both sides and the other side of the river from being destroyed. Our casualties were four.

Bullen-Powell reports that the railway between Mafeking and Bulawayo has been restored and supplies brought into Mafeking. He says the Canadian artillery joined Col. Plimmer from Beira with incredible rapidity.

Lieut. Webber was taken prisoner at Heilbro a few days ago. He went there on telegraph duty. It was not known that our troops had been temporarily withdrawn.

Kronstadt, May 27: Gen. Hamilton has invaded the Transvaal, having crossed the Wonderfontein Drift.

Maseru, Basutoland, May 26: Four squadrons of colonists captured 150 Boers with ten wagons of grain near Ficksburg where they also captured a mine constructed by a local inventor.

Barkly West, May 27: It is reported that the Boers have re-occupied Krudman and large laagers are located at Rietfontein and Daniel's Kull.

Pretoria, May 28: The official bulletin says the British have crossed the Vaal at Grobler's Drift, near Tarry. The high level bridge at Vereinging has been blown up by the Boers.

General Dutoit advises that the burghers are coming forward in force to fight to the end. After taking Heilbron the federals followed the British as far as Volehook.

London, May 27: President Kruger according to despatch from New Castle, has issued a proclamation asking the Transvaal burghers to notify him whether they desire to continue to fight or to sue for peace.

Gen. Botha and Gen. Meyers have pleaded for the preservation of Boer's property. Both are large land proprietors and fear confiscation, but satisfactory replies from President Kruger have not been received.

Many French and German adventurers have come forward with schemes and inventions for blowing up the British troops upon nearing Pretoria. Some of these have received permission of experiment. One German invention is for use on the railway where it lies perfectly concealed until the weight of a passing train explodes the charge.

Gen. Meyer says surrender would be at once proposed by the Boers, but everybody fears the ignominy of being the one to make the proposal. He declares that he is assured that his men will not stand. President Steyn and Reitz say the Transvaal states are strongly opposed to the idea, but Kruger is not so much against it.

### TELEGRAPHIC.

Richard Croker comes out strongly for Bryan.

Mrs. Gladstone, widow of the late W. E. Gladstone, is dying.

The Brooklyn handicap was won by Kinley Mack, 7 to 1, in slow time.

There will be a substantial increase in the Pacific ocean freight rates.

Two Irish inebriates were excluded from the States by the authorities.

The warehouse of Tellier, Rothwell & Co., of Montreal, was destroyed by fire.

Severe fighting occurred in an endeavor to raise the investment of Kumaessie.

The college of physicians and surgeons, Chicago, has decided no longer to recognize athletics.

Dick Grant, of Harvard, defeated Jack Caffrey, of Hamilton, the present champion in the 25 mile race.

The Welland canal dynamiters have been taken to Kingston penitentiary with a life sentence for all three.

Capt. Streeter seized 156 acres along the Chicago lake front and defended it with Winchester and gatlings.

Jake Gaudaur and R. N. Johnson, of Vancouver, may row for the world's championship at Nelson next month.

The Catholic ratepayers in Winnipeg have decided to present their grievances to the local and Dominion governments.

A priest supposed to be Father John J. O'Donnell, of the Providence Retreat, of Buffalo, committed suicide at Niagara Falls.

Nominations took place in British Columbia on Saturday. Municipalities are jubilant over the prospects of the elections, two weeks from last Saturday.

A Utah sheriff was killed by outlaws.

Anarchy is rife in many of the provinces of China and foreign troops must be sent to Peking to preserve order.

The Chicago Methodist conference decided to make no change in the churches attitude towards cards and theatres.

### LOCAL.

—W. H. Cooper returns to-day from Red Deer.

—The band will play on the street this evening.

—J. W. Shera, M. L. A., was in town on Saturday.

—W. J. Johnson and bride returned from the south Friday.

—Jas. Ross, of Ross Bros., went out to the Landing Saturday.

—Strathcona citizens meet to-night to organize a board of trade.

—W. J. Johnson and bride returned from Calgary on Friday's train.

—Mr. Arndt, of Marion, Mich., came in on Friday's train to look over the district.

—Ralph Bellamy returned from Toronto last week, where he has been attending college.

—Misses Veitch and Wilgorey left Saturday for the Landing en route to the mission at Hay river.

—Rev. T. C. Buchanan, conducted opening services in the Clover Bar Methodist church yesterday.

—The ladies aid society of Strathcona Methodist church give a social on Wednesday evening next.

—A football match is in prospect for Friday evening, flat men versus thin. The line is drawn at 150 lbs.

—Rev. W. W. Adamson, of Strathcona, left on the last train for Hamilton where his father is very ill.

—From all quarters of the district come reports of magnificent crops, promising an abundant harvest.

—The N. W. T. Gazette gives notice of the resignation of M. McIntyre, of Strathcona, justice of the peace.

—D. Brox on Saturday last received a telegram from Elmira, Ont., informing him of the death of his father.

—The department of interior are soon to call for tenders for the erection of Strathcona's new immigration hall.

—Lamoureux's bridge across the Sturgeon gave away with a load of grain a few days since and is now impassable.

—Regular meeting of the W. C. T. U. will be held at 3 p. m. Wednesday afternoon at the home of Mrs. Jas. McDonald.

—In the town hall this evening at eight o'clock a meeting will be held to arrange for a celebration here on the 1st July.

—The lost purse advertised in last Monday's Bulletin was returned to its owner on Saturday through the medium of the ad. The moral is obvious.

—The eclipse of the sun this morning was visible here from about six to seven o'clock. The eclipse was partial, about half the sun's disc being obscured.

—Mrs. W. Carruthers, formerly of this place but now of Edmonton, arrived down from there on Thursday night last and is spending a few days in town. She was accompanied by Mrs. Hetu, on a visit to her mother, Mrs. Wardman—Lethbridge News.

—In the Illustrated Globe of the 19th appears an excellent photo-engraving of Thos. McGeachy, of the Mounted Rifles, an Edmonton boy. In the same issue is also reproduced one of the best photographs taken of the driving of the last rivet on the Edmonton bridge. The photograph was taken by J. W. Morris, of Edmonton.

—W. H. Connors and Sam Emerson left Saturday for the north, the former for his trading posts on the Mackenzie and the latter to Chipewyan. John Peacock and Peter Cutlis, who go north with Mr. Connors, left some days before. On the road to the Landing Mr. Peacock fell from the wagon, receiving painful injuries, though it is hoped they are not sufficiently serious to prevent him continuing the journey.

—Rev. W. N. Schwarze, pastor of the Moravian congregation at Bruderheim, beyond Fort Saskatchewan, has recently received a call from the mission board in Herrnhut, Saxony, to assume charge of the newly established training institute at Buxton Grove, on the island of Antigua, British West Indies. Mr. and Mrs. Schwarze leave for their new field of labor in about two weeks.

—John Brown received last week a copy of the bombardment of Ladysmith sent him by W. Fielders. The map is an outline plan of the central part of the city and on it are shown the positions of all the shells from the Boer Long Toms which fell in the locality mentioned during the bombardment. Smaller shells and those which exploded in the air are not marked. The town hall, in which the British sick and wounded were nursed, was a favorite target, and, in fact, was peppered so much that the hospital had to be removed to another building. The Dutch church, which stood out prominently by itself, was left conspicuously alone.

—The Minnow came up the river yesterday.

—Baseball match this evening between the first and second teams.

—Daniel Lamb, Chicago, arrived Friday intending to make his home here.

—D. J. Collins brings in a car of heavy draft horses on Thursday's train.

—Mr. Vernon Barford's third pupils' social took place on Saturday afternoon.

—Miss Oliver returned Saturday from a visit to friends at Fort Saskatchewan.

—A number of parties are quietly outfitting here and start this week for the upper Peace and Findlay.

—P. Clark, lately wiper in the C. & E. roundhouse, Strathcona, has been promoted to fireman and left for Calgary on Saturday to begin work.

—Ed. Williams arrived from the Landing Saturday. The roads are not improving. Bishop Young, with Mrs. and Miss Young, reached the Landing Wednesday.

—The "Season" at Koney Island and Cooking lake opened on the 24th a number of townspeople having driven out to launch the boats, open the club houses and prepare the island for the coming camping season. A very creditable sized fleet of pleasure craft sail the waters of the lake. Among the sail boats are the Mad Hen, of the Koney Island club, and the Witch owned by Dr. Harrison and F. A. Osborne. The club also have at the lake a gasoline launch. A little steamer, the Jean, owned by K. A. McLeod was launched on Thursday, completing a very successful trial trip. Innumerable row boats and canoes complete the pleasure fleet.

A. J. SEWARD, Fort Saskatchewan.

## EAST EDMONTON.

Last Tuesday Mr. Ball started up his mill at Colchester, after a rest of a few weeks owing to the spring work rush. The new saw is making excellent work. He expects to finish there in about a month's time.

Frost was reported two nights last week in low places, and lots of those places this spring. No harm done to garden stuff.

Miss Hawkins, from England, accompanied by her brother, Mr. J. Hawkins, of India, is visiting her sister, Mrs. Geo. McAllister and her brothers, Messrs. W. and D. Hawkins. On the return of Miss and Mr. Hawkins they will be accompanied by Mrs. McAllister, who goes to England to visit her parents, Rev. and Mrs. Hawkins, of Brighton.

## BEAVER LAKE EAST.

The lake was clear of ice on May 4th, twenty days earlier than in 1899. It has risen about three feet, thus being higher than for seven years.

We asked the local government last year for aid in fighting the gopher pest; they politely declined. Nature, in the form of disease, crowning, or both, has done what they refused to do, from one-third to three-fifths of those alive last fall having been rendered non est comitibus, so to speak.

Seeding is almost over, except for barley. The area sown is about the same as last year, on the whole; some having put more in, others less. The prospects are better than for years past.

Charlie Clark caught a young cinnamon bear in the lake not long since. It was wandering along the beach and took to the water when he chased it. The little fellow is quite frisky and playful. How it came to be alone on the beach is a mystery.

May 23, 1900.

## POPULAR LAKE.

A young people's picnic was held on May 24th at Fielder's grove, popular lake. Games and sports were indulged in and a pleasant time spent by those present.

Seeding operations are practically finished.

Great quantities of freight are passing through the district this spring en route to the Landing.

The roads are improving, though yet very bad in places.

Mr. Powell, a brother of James, Harlow and King Powell, arrived from Ireland recently. Mr. Powell intends making his home in Alberta.

Lords of settlers' effects en route to the Sturgeon pass along the trail daily. The immigration into this district is large this year.

## ST. ALBERT.

J. D. Renault, of the Windsor Hotel, has increased the size of his premises by raising it to three stories and erecting an addition.

Crops are looking excellent and it is doubtful if the prospects for an abundant harvest were ever better. The roads, however, would admit of improvement. Some slight attention from the powers who have such matters in their charge would be gratefully appreciated.

Dr. Tierney has removed his office across the river to the residence formerly occupied by G. W. Gardner. The property has been lately purchased by the doctor, who is having it completely renovated.

H. W. McKenny is laying in an immense stock of goods in preparation for the business occasioned by the scrip payments.

Hebert & Perron have altered, and greatly improved, the interior of their store.

Four rafts of lumber from D. E. Noyes' mill have already been brought down and sold. The lumber finds a ready market here.

Plaintiffs: On Tuesday the vote on the \$13,000 school debtures by-law was taken. The number of votes cast was 74 of which 64 were favorable and 10 against the by-law hence it is carried. The plans for the new school have arrived, and a contract for its erection will be let soon as possible. It is the desire of the board to have the building ready for use in August.

Brome grass seed is the best paying crop at the Brandon experimental farm. Last year the returns from one, two, three and four year old meadows averaged \$35 per acre for seed alone, at 15c a pound. Besides this the hay will be for feed. An interesting fact has been brought to light about the value of brome hay. In the bottom of a two year old straw stack on the experimental farm there is some brome hay (or straw). It was put out there before its full value as feed was known, and now that the stock have found it they make for it constantly.—North-West Farmer.

The trial of Arthur McIntyre, the thirteen year old son of the late Peter McIntyre, of Toronto, for manslaughter on in having caused the death of his father was held on Tuesday. The trial occupied the whole day, and at the conclusion the jury remained out half an hour. They returned with a verdict of "guilty, with recommendation to mercy." On Wednesday the lad was sentenced to four years at the Mimico Industrial school.

## A COMMUNICATION.

Editor Bulletin.

The St. Albert district is aware of the attitude of their representative, Villeneuve pursued at the last Northwest assembly in dramatically opposing the three-cornered combination and by the tone of other constitutions in the neighborhood. A similar course would have been acceptable to the general public which will be fully demonstrated at the next election. The names of McDonald, Villeneuve, Shera, Hawke, Bennett, McLeod, McKay, and McDermid, will be handed down in the annals of history in the Northwest Territory for the noble stand taken by them for judicious legislation and prudent administration.

Yours respectfully,  
MALCOLM MCKINLAY.

## BERLIN RELIEF FUND.

Emperor William has telegraphed to Lord Curzon, the Viceroy of India, as follows:

"Full of the deepest sympathy for the terrible distress in India, Berlin has, with my approval, realized the sum of over half a million marks, and I have ordered it forwarded for your disposal. May India feel that this action on the part of the capital of the German Empire is from a deep sense of the sympathetic love for India which has prompted my people, and which emanates from the fact that blood is richer than water."

## MARKETS.

Lettuce, green onions, rhubarb, and all kinds of early produce are plentiful. Butter and eggs are also coming in in good supply. The prices of meat and grain are merely nominal, little of either being marketed.

The grand jury at the assize court on Wednesday brought in a true bill against canal dynamiters, Dullman, Walsh and Nolan. On the indictment being read to the prisoners, each pleaded not guilty, counsel agreeing that the trial be fixed to commence Thursday morning.

A despatch from Yokohama says: The best informed people are of the opinion that, although Japan and Russia may squabble over points of strategic advantage, these differences will not for a long time lead to war, and that Korea will be the buffer State between the two powers for years, and that the only chance of Japan being pushed into war is by the possible approaching financial crisis. It is reported that there is an enormous deficit in the budget this year, which, it is reported, will be \$10,000,000. Just where the money is coming from to meet current expenses for Japan's large army and navy is the question of the day.

The Alberta Hotel, Calgary, is adding 25 rooms to its already large accommodation. Its rates run from \$2.00 a day, according to location of rooms. The Alberta has the finest cuisine in the North-West.

## HALF-BREED SCRIP.

The Canada Gazette, of April 21st, contains the appointment of the members of the two half-breed scrip commissions which are to sit in the Territories during this season; and also certain particulars as to the persons who are to receive scrip.

These are:

Half-breeds born in the organized portions of the Territories between the 15th of July, 1870, and the 31st of December, 1885. This includes children of Manitoba half-breeds born in the Territories between the dates named, notwithstanding that the rights of their parents were already extinguished in Manitoba. Children of this class (children of Manitoba half-breeds) in the district of Athabasca, whose claims were rejected by the scrip commission in that district last year, may now have their claims reconsidered.

Scrip will be issued to the heirs of children, who if they were alive, would be entitled to scrip on account of their being born in the organized Territories between the 15th of July, 1870, and the 31st of December, 1885.

Half-breeds over 18 years of age will receive their scrip personally from the commissioners. In the case of those under 18 the scrip will be delivered to the father if living or to the mother if the father be dead, and in the case of orphans under the age of 18 years the scrip will be delivered to guardians on evidence of guardianship satisfactory to the commissioners.

It was at first decided that there should be no recognition of assignments of scrip, but on March 8th, the following recommendation was adopted:

"The Minister therefore recommends that the order in council of 2nd March, 1893, be so amended as to admit of the commissioners accepting powers of attorney in the case of Half-breeds who through illness or otherwise are unable to appear before them to take delivery of scrip, and further to accept powers of attorney or assignments of scrip made by half-breeds under their being satisfied that the agreement under which the assignment was made or the power of attorney given does not operate to the disadvantage of the half-breed, and has been duly fulfilled, and that in any case in which no agreement has been made the half-breed who executed the assignment or made the power of attorney shall receive the current price being paid for scrip."

## CAPE NOME

A despatch from Nome, received May 5, and four months in transit, states that the whole region has been run over by stampedes, with dogs teams, who themselves and by power of attorney have staked the whole country without knowing whether there is gold or not. They bring reports of good prospects where they have probably never done anything more than put a stake down in the snow, without disturbing a spoonful of dirt.

The beach and land near Nome are also being taken up in 100-acre tracts, regardless of the previous staking. It is then surveyed by a surveyor, who gets an interview with the dog teams, who themselves and by power of attorney have staked the whole country without knowing whether there is gold or not. They bring reports of good prospects where they have probably never done anything more than put a stake down in the snow, without disturbing a spoonful of dirt.

On New Year's eve there was a grand stampede to the creeks to locate ground on which the assessment work had not been done. Men with dog teams, men on foot, with women, scattered here and there, started out, those for the nearest creeks waiting and going out with lanterns, all ready to stake at twelve o'clock. Up the mountain sides near the town, in lonely gulches miles away up the creeks, on the rivers, lanterns could be seen flashing like fireflies of standing stately as a beacon light where some stamper was at one post waiting for the first second of the new year to drive stakes in the snow. Some claims had half a dozen men on them, while some of the most valuable had only one lucky "jumper" when midnight came.

The weather so far has been fine, with only one storm. Travelling contrary to all expectations, is much easier than in the upper Yukon country. This it is which has made the staking of so much ground possible. Men can take a dog team and go anywhere with comparative ease, the lack of wood being the only drawback. Should the country back from the coast prove good the expense of getting supplies for winter will be small.

This winter has proved that the horrors of these northern regions have been exaggerated greatly, and that

with fuel and provisions men can be made as comfortable, go about as freely and have as much health as in any of the northern tier of states. There has not been a case of scurvy this winter and no late cases of typhoid, the camp being remarkably healthy.

There is a plentiful supply of provisions, the companies having more than they let people know of, for the purpose, apparently, of giving them an excuse to raise the prices exorbitantly. Coal is still going up, selling as high as \$10 a ton. Wood beach drift—very poor—is \$10, with an upward tendency also.

No mail has yet come in, but some is expected this month. Four carriers start out within a week of each other, one by way of Dawson and Barrow by way of Kotzebue. One dollar a letter is charged. The government mail rate is \$1 an ounce. Unless there is a terrible fire people will have a fine winter, and be prepared for the rush in the spring.

The greatest race for gold ever made to any camp has just begun from Tacoma, Wash., and other outfitting points. A dozen steamers and numerous sailing vessels, all loaded to the limit with people, lumber, and mining machinery, have started for Behring Sea. By the end of May it is estimated that 20,000 people, twenty-five cargoes of coal, and 9,000,000 feet of lumber, will have been shipped to Nome.

## WAR NOTES.

## Making's Relief.

Following is the text of Baden-Powell's despatch to Lord Roberts, announcing the relief of Mafeking.

"Mafeking, May 17.—I am happy to inform you that Mafeking was successfully relieved to-day. The northern and southern columns joined hands on May 15th and attacked the enemy yesterday, and after a small engagement entirely defeated them with loss. The British casualties were three killed and 22 wounded. The relieving force marched into Mafeking at 9 this morning, and the relief and defence forces combined and moved out and attacked the enemy's laagers. We shelled them out and nearly captured Snyman, and took one gun, a flag and a large amount of ammunition, stores, etc. Five dead and 15 wounded Boers were found. The enemy appeared to be retreating in all directions except one command which is lying low, possibly to cover the retreat of the remainder. Captain McLaren and Corporal Murray were found in the Boer hospital; they are doing well. The townspeople and the garrison of Mafeking are heartily grateful for their relief."

A correspondent writing from Bloemfontein, April 14, says: "Since coming to Bloemfontein, the regiment has had its full share of sickness. At present there are 91 men and four officers of the Royal Canadian lying in various hospitals. The worst buildings in town are turned into hospitals. Everywhere are to be met attendants, nurses, and surgeons with their little red and white arm badges, in fact, a small nursing army is looking after the British firm, the men who are now too plainly showing the effects of Roberts' grand march from Modder river railway to Bloemfontein."

The following is an extract from Col. Kekewich's report, dated Kimberley, 5th of February, 1900, and published in the London Gazette of the 9th instant: "I beg to bring the officers of my staff most especially to notice, and to say that their valuable services will be rewarded. Lieutenant (local agent) D. S. MacInnes, R. E., worked most carefully and constructed with marked ability and success the engineer operations for the defence of Kimberley. He is a real hard worker, full of zeal, energy and resource. Wherever he went he inspired confidence. On Brevet-Major Turner taking over the command of the mounted troops, Captain MacInnes relieved him as my staff officer, and I cannot speak so highly of the manner in which he acted out his heavy and very responsible duties, both within the fortress and in connection with sorties, reconnaissances, etc." Lord Roberts, in commenting on Col. Kekewich's report stated that he is of opinion that the services of the officers whose names he has brought to special notice are deserving of recognition. Lieut. MacInnes is a Canadian, a native of Hamilton. He is a son of Senator MacInnes.

A London despatch says that Hon. S. Blake made a striking speech in the commons on the Australian confederation bill. He appealed to his experience of 20 years in two Canadian legislatures as warranting a message of cheer and congratulation to the Australians in embarking upon a similar federal path. He said the Canadian constitution contained quite a logical proposition, as did that of Australia. In all constitutions the first saving elements lay in moderation, good sense and determination to work for the best interests of the people. A quarter of a century ago he dreamed a dream of imperial parliamentary federation. He had long come to the conclusion that British had passed the turning point that would lead to that terminus; if ever, indeed, there was a practical road. The Empire had gone too long and too extensively upon the line of separation action at home, as elsewhere, to go back now. The links binding the colonies with the mother country were strong and real, deriving strength from the principle of nationality and self-government.

## A WORD ABOUT REPAIRS.

There is no article that is so closely associated with us as a Watch. It regulates all our business, and is either of the greatest value or no value whatever. A Watch must either be repaired properly or ruined, and hundreds of fine Watches have been utterly ruined by being repaired upon by unskilled workmen and apprentices. Having been in the Jewellery and Watch Repairing bench for the past 19 years in the most reliable shops in some of the largest cities of EUROPE, UNITED STATES AND CANADA, from which I have received diplomas and excellent references for my skilled mechanical work, which proves that I am sufficiently master of my trade, I make this class of work a distinct feature and give it my most scrupulous attention. All work entrusted to my care will be repaired expeditiously and in a superior manner, accompanied with a guarantee for twelve months. I shall do my utmost to gain the confidence of all who favor me with their patronage. One trial will prove.

Hoping to have a call from you, I remain,  
Yours respectfully,

## THE PEACE RIVER.

In a late edition of the Farmer's Advocate appears the following interesting article on Peace River, from the pen of E. J. Lawrence:

About latitude 56 degrees north and in longitude 124 degrees west, there is the meeting of two rivers which join their forces here between the ranges of mountains, which run in a northwesterly and southeasterly direction, giving a strictly opposite direction from each other of the rivers mentioned. Although their junction is not more than perhaps 300 miles from the coast in a direct line, yet these streams drain a very large area, and even before their meeting are respectable-sized rivers. These are the

Valley. Here the river is about 1,500 feet above sea level, and the high and beautiful table lands upon both sides of the river are from 800 to 1,000 feet above the river. These are drained by numerous small rivers from 100 feet to 400 feet in width, which flow in beautiful valleys from 300 to 500 feet below the general level, and deepening as they near the main stream. The Peace river is the largest of these. It comes in on the south bank, and passes through the mountains at an elevation of only 2,850 feet, and was formerly highly recommended for the main line of the C. P. R.

The trend of the river is eastward until after it receives the waters of the Smoky river, another stream from the south, whose waters rise in high-

exuberance of summer vigor there is but one river, and that, taking upon itself the task of filling up the great basin of Athabasca lake, flows northward through two channels, the Slave river just mentioned, and one about six miles further up the stream, called the Quatre Fourche. Probably about one-third its volume of water is thus deflected southward, and performs what is generally considered the impossible feat of water flowing up hill. The balance of its waters proceed northwards, unbroken for about 76 miles, to the Smith rapids. The river during this part of its course is not unlike the St. Lawrence above its course through the Thousand Isles. This much we have said about the river, yet it is not the river in itself

HOME OF E. J. LAWRENCE, PEACE RIVER.

Finlay, coming from the N. W., and the Parsnip, from the S. W., whose principal tributary flows from Summit lake, which is only seven miles from the Fraser river, and not far from the Pacific coast. Its altitude is 2,300 feet. At the junction of these rivers, to form what is known as the Peace river, they are at an elevation of 2,000 feet.

From here, through the main chain of the Rocky Mountains, the course is eastward, where it flows mostly in a tranquil current, with few rapids, along a beautiful valley about two miles wide, flanked by mountains from two to three thousand feet above the river, and whose highest peaks at-

or mountains, much further south, and whose tributaries interface with those of the Athabasca river. The Smoky is a stream swift in its course and difficult to navigate, and is about 900 feet wide near its mouth. Among the peculiarities of this river are the subterranean fires, which give rise to its name, and though it is the most southern tributary of the Peace river, yet its summer freshets take place at a later date in the season than that of the other rivers. This is caused by its feeders being in a higher altitude, and therefore not so quickly affected by the summer's heat.

From this locality, which is known as Peace River Crossing—i. e., where

in which the principal interest lies, although from that standpoint alone it is one to which all Canada may point with pride. A mighty stream, which even up among the mountains contains hundreds of miles of water stretches suitable for light-draft vessels, and then as it leaves the mountains gives about 600 miles of first class navigation for ordinary river boats, until broken by what are called the Vermilion rapids and falls, which are about a mile and a half apart, and where the waters descend about 25 feet in about two miles. I cannot particularize much in an article of this kind; suffice it to say that the river flows on from here to the Smith rap-

WHEAT FIELD AND GARDEN OF E. J. LAWRENCE, PEACE RIVER.

tain an altitude of about 6,000 feet above sea level. The river along this course is from 600 to 1,000 feet in width.

Where it leaves the mountains and is compressed through the canyon, it is in places not over 200 feet in width, and has a descent of 270 feet in 25 miles, making a water power sufficient to turn the world if it could be utilized; or even perhaps run the Manitoba political machine at a low speed.

From saying farewell to the mountains, its flows on to form what is popularly known as the Peace River

the trail from Lesser Slave lake to Dunvegan crosses the river—it turns to a northerly course for about 250 miles, to near Vermilion, thence easterly again for about 300 miles, until it receives in its embrace the waters of the Athabasca river, in the stream generally known as Slave river. This stream is the outlet of Athabasca lake, flowing northward; about 30 miles north of the lake the Peace comes in. When the water is low in the latter river, they flow on seaward in partnership; but when the waters of the mighty Peace are in the

ids, a distance of about 300 miles. These rapids necessitate a portage of 18 miles, and are the only other obstruction existing here the mouth of the Mackenzie is reached, a distance of more than 2,500 miles from Summit lake, and which, including all its rapids and falls, descends less than one foot per mile on an average during its entire course.

Along the main part of the Peace river the current is from two to four miles per hour, according to the height of water, and the stream varies from a half to a mile in width.

Mr. Ireland and his wife, who is a sister of Mrs. Montgomery, of Britton lake, have just arrived from Ireland. Willoughby Montgomery, his brother-in-law, has taken up land for him close to his own ranch at the lake. May 25, '00.

The Boer question came up in the United States senate on Monday last on the resolution of Mr. Allen to admit the Boer representation to the floor of the senate. Senator Davis, chairman of the committee on foreign relations, delivered a vigorous speech on the question of the Boer representation. He said their mission was well understood, and known. They had, however, proceeded in a manner irreg-

ular and highly improper. Mr. Davis said that these representatives had been taking an unwise course, premature and undiplomatic. Before presenting their cause to this government they were going about the country attending public meetings, and attempting to enlist the people of the United States to bring pressure to influence the action of the government. Mr. Davis moved to lay the Allen resolution on the table, which was carried.

61 Years of Solid Experience

## Frost &amp; Wood Machinery.

The year just past has been one of the most successful for Frost & Wood Machines, from the Atlantic to the Pacific. In every province of the Dominion their superiority over all competitors has been proven. Our output for 1899 was the largest in the history of our business, but the demand exceeded the supply by hundreds of machines. Our output for 1900 will largely exceed that of last season; and to endeavor to meet the constantly increasing demand, we have made extensive additions and improvements to our works and will be in a better position than ever before to serve our customers. We do not like to disappoint any, and hope to have machines for all, but to those who contemplate purchasing this year we would say

PLACE YOUR ORDERS EARLY.

Our No. 2 Binder is complete in every respect, and leads them all wherever used.

The Frost & Wood No. 8 Mower needs no new recommendation, as it has been before the people for so many years that it has established for itself a reputation which gives it pre-eminence over all other makes.

We carry the most complete line of Buggies and Carriages ever shown by any house in the Northwest: all set up for inspection.

Farm Wagons in all sizes. We also have Harness for every buggy we sell. Single Harness of the very latest styles.

Horses shod in the very latest styles. Wagons repaired so as to appear like new. Painting and trimming in all its branches. Our shops are the largest west of Winnipeg. Our stock is the most complete in all its branches, so that you are sure to get your work done in the best order.

Baden-Powell, it is reported, is to be promoted to the rank of Major-General.

The dates of the coming effort are from May 27th to June 2nd, previous and during which time our citizens will do well to prepare their purses in preparation for the call of some of the heroes or heroines of "Blood and Fire," for feeding the hungry, housing the homeless, caring for the orphans, saving the drunkard and gathering into the fold of Christ, the outcast and morally lost, is certainly a worthy cause.

The brigade also made good showing. The reel race was not decisive and the competition will be concluded here on July 1st. L. Garon, made the "best" time in rescuing a dummy from an upper storey. E. Engstrom tied the Calgary boys in the same event. G. Groat and H. McAllister won first and second, respectively, in the hundred yard race, Mr. Groat also winning second in the hurdle race.

The members of both brigade and hand speak in the highest terms of the hospitable manner in which the Calgary boys entertained them and an effort at retaliation will be made on Dominion Day.

Providing Detective Murray; of Ontario, has been working on the case of the attempt to blow up the Welland canal locks, and has given to the press the history of the case. Dullman, Nolin and Walsh, the three men under arrest are members of the "Napper Tandy Club of Seattle," a National Anti-Bolshevik organization. About April 11th or 12th Nolin is alleged to have received a communication from the Napper Tandy Club instructing him to join Walsh and accompany the latter to Philadelphia. At the Reading Depot these were told, they would meet a certain man. Nolin was to assume the name of Seattle, and Walsh was to adopt the name of Thomas Moore. They arrived at the Reading station at Philadelphia about 7 o'clock on the evening of April 14th.

No sooner had they appeared on the platform than they were accosted by a stranger, who had evidently been well informed as to their appearance. Addressing the two men by their assumed names, he led them to one side, and handed them \$100 in cash, also two railway tickets and two sleeping-car tickets to Buffalo. The stranger is alleged to have informed the two that on arriving in Buffalo they were to go to the Stafford House, and there they would meet a gentleman named Nathan. He said that whatever he said to them would be all right. At 7.45 they left Buffalo and reached their destination the following day at about noon. Proceeding to the Stafford House as directed, they registered and were assigned to room No. 88. Soon after their arrival, Nathan came to their room, and the three had drinks together. They afterwards went out for a walk and spent

A couple of hours in visiting resorts in Canal street and other places. On returning to the hotel Dullman is said to have informed his companions that he would want them to accompany him early next morning. The following morning after breakfast the two men are alleged to have gone to Dullman's room and there received telescope grips containing dynamite. The dynamite was in the shape of large cakes. The three men, according to evidence in the crown's possession, boarded the trolley cars and got off at Niagara Falls, N. Y. Nolin and Walsh

went to the Imperial Hotel and registered as Smith and Moore, respectively. They remained for dinner, and about 3 o'clock were joined by Dullman, when the trio proceeded by the Grand Trunk railway to Merrittville. Merrittville, the crown willow, the three men left the train and took the street cars to Thorold. They then walked to the lock gates which were to be blown up, and the plan of operations was explained by Dr. Yaman. The three men then returned, and Nolin and Walsh spent the night at the Imperial Hotel on the American side. On Tuesday morning their headquarters and

The two missing men were seen by a man named Dolphin, which was kept by a man named Dolphin formerly of Dubin. There they registered at the Dubin. In the meantime Dolphin man had remained at the Rosalie Hotel on the Canadian side. He visited the other two at their hotel and went about with them in the streets. After various other movements, which have been traced, came the attempt on the city gaols, which was only broken up by the two dynamite men who were wanted. The two dynamite men were met by Dulaney at the Star Hotel in Buffalo after the explosion and receive the reward for the crime, but this plan was frustrated owing to their prompt arrest.
